

CSCSC Long Course Records

2008 – 2022

Age as of 31st December

This is a complete and best attempt of an accurate record of CSCSC swimmers from 2008-2022. From 2023, the club will be utilising TeamUnify to track its swimming records. This new method will be a lot less accurate but will require less maintenance for club volunteers and staff. If you have any questions please let us know.

CSCSC Long Course Records – Age 9

Boys	Time	Stroke	Time	Girls
Josua Mara - 2015	38.17	50M Freestyle	36.61	Anna Podurgiel - 2011

Camden Swiss Cottage Swimming Club Records FAQs

Question: Why do the club records start at 2008?

Answer: The original club record database was neglected and eventually lost. A new records database was manually created using results from the British Swimming database and archived meet results. Each record was then scrutinised against specific competition results to ensure all CSCSC specifications were strictly met. 2008 was used as a starting point because any records before that could not be verified consistently.

Question: Why do the records stop at 2022?

Answer: It was decided that it would be easier to track club records via the CSCSC TeamUnify database. Even though this method is a lot less accurate because not all swims (both historic and present) are uploaded into TeamUnify, it requires much less oversight by club volunteers and staff.

Question: Does a record count if the swimmer is a member of the Camden Swiss Cottage Swimming Club but achieves the record time while competing for another team (E.G. County/Regional teams or school teams)?

Answer: No. A record only counts if the swimmer achieved the record while swimming specifically on behalf of Camden Swiss Cottage Swimming Club.

Question: How often are these records updated?

Answer: Individual records are updated sporadically through the year as individual records are claimed. A thorough review of the club records is undertaken at the end of each calendar year to account for unclaimed records. (Note: This method of record keeping will cease on 31 December, 2022.)

Question: Can a record be claimed with “age as of day” in lieu of “age as of December 31st”?

Answer: No. The current database was created specifically to follow the British Swimming standard age group specifications which is “age as of December 31st”. Changing these criteria would make the current club record database completely invalid.

Question: Is there any formal acknowledgment of achieving a club record?

Answer: Yes, the swimmer’s coach will hand out a CSCSC Record Certificate during a regularly scheduled practice acknowledging the claimed record(s). (Note: This practice will cease on 31 December, 2022.)
